EMGRAND 7

MAKE A GRAND IMPRESSION

EMGRAND

EXTERIOR

The EC7 is based on an entirely new Emgrand platform developed according to a first-class internationally-derived development process. The entire vehicle meets multiple European safety and environmental standards, and is the first and only Chinese vehicle produced by a stand-alone manufacturer to score a full-house of 5 stars in the Chinese NCAP crash tests, and 4 in its very first attempt at the stringent Euro-NCAP collision tests.

Offering outstanding value for money at an unmatched price, the new EC7 is launched with a powerful 1.8-litre 4-cylinder DOHC engine matched to a 5-speed manual transmission.

INTERIOR

All EC7 models come equipped with a wide range of standard features, these include: CD/MP3 Radio, Power Steering, Automatic Central Locking, Leather Interiors, Remote Side Mirrors, Digital Trip Computer, In-boot Safety Release and Automatic Climate Control

The Executive models also includes 4-way directional electronic drivers seat, sunroof and side airbags.

SAFETY

The Emgrand EC7 follows the philosophy of TSM – Total Safety Management.

This philosophy aims to provide comprehensive protection to passengers and pedestrians through all-inclusive management of all aspects affecting vehicle safety from initial planning of Research & Development to final vehicle production.

SPECIFICATION

	LUXURY	EXECUTIVE
Engine		
Engine Configuration	4G18	4G18
